1Tax CA Firm Website

Complete Product Requirements Document (PRD)

Document Version: 1.0
Status: Product Definition / Development Ready
Primary Market: India
Base Location: Delhi NCR
Service Coverage: Pan-India
Product Type: Professional CA Services Website + Lead Generation Platform
Primary Experience Reference: TaxCaller
Competitive References: Vakilsearch, CorpBiz, IndiaFilings, Startupwala, RegisterKaro

---

1. Executive Summary

The objective is to build a modern, trustworthy, human-first website for a Chartered Accountant firm based in Delhi NCR and serving clients across India.

The website should combine:

- The **human CA consultation experience** of TaxCaller
- The **service breadth and categorization** of Vakilsearch
- The **package and service clarity** of CorpBiz
- The **SEO depth and content architecture** of IndiaFilings
- The **startup lifecycle approach** of Startupwala
- The **scalable service taxonomy and tools** of RegisterKaro

However, the website must **not look like a generic online filing marketplace**.

The central positioning should be:

> **A real CA-led professional advisory firm where individuals, startups and businesses can explain their requirements, get professional guidance and receive end-to-end accounting, taxation, compliance and business support.**

The firm's strongest differentiator is its specialized expertise in complex and high-value matters such as:

- MSME Payment Recovery / Case Filing
- Search & Seizure Cases
- Income Tax Assessment Cases
- Trademark Litigation
- Inverted Duty Structure Refund
- Export GST Refund

These services should receive significantly more prominence than ordinary registration/filling services.

---

2. Product Vision

Vision

Build a trusted digital front door for the CA firm that allows a visitor to:

1. Understand what the firm does.
2. Quickly identify the service relevant to their problem.
3. Understand the service without needing technical knowledge.
4. Speak directly to a CA/expert.
5. Submit an enquiry.
6. Receive a consultation or quotation.
7. Build a long-term relationship with the firm.

The website should make visitors feel:

> **"I can talk to a real CA about my problem."**

rather than:

> "I need to choose a filing product and purchase it."

---

3. Business Objectives

Primary Objectives

3.1 Lead Generation

Generate qualified enquiries through:

- Consultation forms
- "Talk to a CA"
- WhatsApp
- Phone calls
- Service-specific enquiry forms
- Quote requests
- Case assessment forms

3.2 Build Trust

Establish the CA as a credible professional through:

- CA profile
- Experience
- Qualifications
- Professional credentials
- Client testimonials

- Case studies
- Service expertise
- Educational content
- Transparent process

3.3 Establish Pan-India Presence

The firm is Delhi NCR-based but should clearly communicate:

> **Delhi NCR-based CA firm serving clients across India.**

The website should not position the business as a Delhi-only CA firm.

3.4 Capture Complex Cases

The website must generate leads for high-value services including:

- Tax assessment
- Search & seizure
- GST disputes
- MSME payment recovery
- Trademark disputes/litigation
- GST refunds
- Export refunds
- Inverted duty refunds
- Business advisory
- Virtual CFO

3.5 Build Long-Term SEO Traffic

Create an architecture capable of ranking for:

- CA services
- GST services
- Income tax services
- Accounting
- Business registration
- Startup services
- MSME services
- Trademark services
- Delhi CA searches
- India-wide service searches
- Problem-based searches

---

4. Target Audience

Persona 1 — Startup Founder

Needs:

- Company registration
- GST
- MSME
- Startup India
- Trademark
- Accounting
- Tax compliance
- Business website
- Financial planning

Primary CTA:

Start Your Business

Persona 2 — Existing Business Owner

Needs:

- GST
- Accounting
- Income Tax
- TDS
- ROC/MCA
- Audit
- Compliance
- Advisory
- Virtual CFO

Primary CTA:

Talk to a CA

Persona 3 — Individual Taxpayer

Needs:

- ITR
- Tax planning
- Capital gains
- Tax notices
- Assessment

- Refund
- NRI taxation

Primary CTA:

Get Tax Consultation

Persona 4 — Exporter

Needs:

- GST
- LUT
- Export compliance
- Export refund
- ITC refund
- Inverted duty refund
- International taxation

Primary CTA:

Discuss Your Export Requirement

Persona 5 — MSME Owner

Needs:

- MSME registration
- GST
- Accounting
- Taxation
- Delayed payment recovery
- MSME case filing

Primary CTA:

Discuss Your MSME Case

Persona 6 — Client Facing Tax/Legal Problem

Needs:

- Notice reply
- Assessment
- Search & seizure
- GST investigation
- Tax representation

- Litigation support

Primary CTA:

Discuss Your Case

Persona 7 — Growing Company

Needs:

- Virtual CFO
- Financial reporting
- MIS
- Cash-flow management
- Tax planning
- Compliance
- Funding
- Due diligence

Primary CTA:

Talk to Our Advisory Team

---

5. Brand Positioning

Core Positioning

> **Professional CA Services for Individuals, Startups & Businesses — With Real Expert Guidance.**

Alternative messaging:

> **From Starting Your Business to Solving Complex Tax & Compliance Matters.**

Supporting message:

> **Delhi NCR-based CA firm serving clients across India.**

---

6. Brand Experience Principles

6.1 Human First

Every major page should make it easy to contact a professional.

CTAs:

- Talk to a CA
- Get a Consultation
- Discuss Your Case
- Get Expert Guidance
- Request a Quote
- Tell Us Your Requirement

6.2 Professional, Not Corporate-Cold

The design should feel:

- Professional
- Reliable
- Experienced
- Human
- Approachable
- Modern

Avoid:

- Excessive stock photos
- Overly generic corporate language
- Aggressive sales tactics
- "Buy Now" as the primary CTA for complex professional services

---

6.3 Simple Language

The user should understand the service without needing to be an accountant.

For example:

Instead of:

> "Assistance with accumulated input tax credit under inverted tax structure."

Use:

> **Inverted Duty Structure Refund**
> Recover eligible accumulated GST credit when the tax rate on inputs is higher than the output tax rate.

---

7. Information Architecture

Main Navigation

---

20. Virtual CFO

- Financial Reporting
- MIS Dashboard
- Cash Flow Management
- Budgeting & Forecasting
- Financial Planning
- Business Performance Analysis
- Cost Optimization
- Management Reporting
- Investor Reporting
- Board Reporting
- Fundraising Financial Support
- Due Diligence Support

---

21. Funding & Finance

Funding

- Business Loan Assistance
- Working Capital Loan
- MSME Loan Support
- Startup Funding Readiness
- Investor Readiness
- Fundraising Support

Documentation

- Project Report
- DPR
- CMA Data
- Financial Projections
- Business Plan
- Financial Model
- Loan Documentation
- Funding Documentation

---

22. Valuation

- Company Valuation
- Startup Valuation
- Share Valuation
- ESOP Valuation
- Financial Asset Valuation
- Valuation Report
- Transaction Valuation
- Fundraising Valuation

---

23. International Tax & Business

- Import Export Code
- Export Compliance
- Export GST Advisory
- Export Refund
- LUT
- Import GST Advisory
- International Business Setup
- Transfer Pricing

---

24. NRI Services

- NRI ITR Filing
- NRI Tax Advisory
- NRI Property Tax
- Capital Gains for NRIs

---

25. Legal & Compliance Support

Business Legal Support

- Legal Notice Support
- Contract Review
- Agreement Drafting
- Business Agreements
- Employment Agreements
- Vendor Agreements
- NDA
- Partnership Agreements
- Terms & Conditions
- Privacy Policy

---

30. Startup Package

The Startup Package should be positioned as a **complete business launch solution**.

Business Setup

- Business Structure Consultation
- Company/LLP/Proprietorship Setup
- PAN/TAN
- GST
- MSME/Udyam
- Startup India/DPIIT
- IEC
- FSSAI where applicable

Brand Protection

- Trademark Search
- Trademark Registration

Financial Setup

- Accounting Setup
- Bookkeeping Setup
- Tax & Compliance Setup
- Financial Planning

Digital Setup

- Professional Business Website
- Domain Setup
- Hosting Coordination
- Basic Business Website Pages
- Business Contact/Lead Setup
- Website Launch Support

Important: The website service must be presented as part of the Startup Package, not as a standalone primary CA service.

---

31. Specialized Services

This section should be highly visible throughout the website.

31.1 MSME Payment Recovery

Positioning:

> **Recover Your Outstanding Business Payments Through the MSME Framework**

Potential content:

- Who can use MSME payment recovery
- Delayed payment situations
- Eligibility
- Required documents
- Process
- Case filing
- Follow-up
- Recovery process
- FAQs
- Consultation CTA

CTA:

Discuss Your MSME Case

31.2 Search & Seizure Cases

Positioning:

> **Professional Guidance for Search, Seizure & Tax Investigation Matters**

CTA:

Discuss Your Case Confidentially

31.3 Income Tax Assessment Cases

Positioning:

> **Expert Support for Income Tax Assessment & Scrutiny Matters**

CTA:

Get Assessment Support

31.4 Trademark Litigation

Positioning:

> **Professional Support for Trademark Disputes & Litigation**

CTA:

Discuss Your Trademark Case

31.5 Inverted Duty Structure Refund

Positioning:

> **Recover Eligible GST Credit Under the Inverted Duty Structure**

CTA:

Check Your Refund Eligibility

31.6 Export GST Refund

Positioning:

> **GST Refund Support for Exporters**

CTA:

Discuss Your Export Refund

---

32. Homepage PRD

Section 1 — Hero

Headline:

> **Expert CA Services for Your Business, Taxes & Financial Needs**

Subheadline:

> Delhi NCR-based CA firm providing professional accounting, taxation, compliance and business advisory services to clients across India.

Primary CTA:

Talk to a CA

Secondary CTA:

Explore Services

Supporting CTA:

WhatsApp Us

---

33. Homepage — Problem-Based Service Finder

Instead of forcing visitors to understand CA terminology:

What do you need help with?

Cards:

I want to start a business

I need GST help

I need to file my Income Tax

I received a tax notice

I need accounting support

I need trademark protection

I need to recover MSME payments

I need GST refund

I need a Virtual CFO

I need business advice

CTA:

Tell Us Your Requirement

---

34. Homepage — Specialized Expertise

Prominent section:

Complex Matters Need Experienced Guidance

Cards:

- MSME Payment Recovery
- Search & Seizure
- Income Tax Assessment
- Trademark Litigation
- Export GST Refund
- Inverted Duty Refund

Each card should have:

- Short explanation
- Learn More
- Discuss Your Case

---

35. Homepage — Services

Display major categories, not every individual service.

Example:

Start & Register

Business registration, startup setup, licences and registrations.

Manage Taxes

GST, Income Tax, TDS and international taxation.

Maintain Compliance

Accounting, audit, ROC/MCA and payroll.

Protect Your Business

Trademark, IP and MSME support.

Grow Your Business

Advisory, Virtual CFO, funding and financial planning.

CTA:

View All Services

---

36. Homepage — Why Choose Us

Potential points:

- CA-led professional service
- Pan-India support
- Personalized consultation
- End-to-end business support
- Specialized tax & compliance expertise
- Transparent process
- Dedicated client assistance
- Startup-to-growth support

Actual claims should only be published after client approval.

---

37. Homepage — How It Works

Step 1

Tell Us Your Requirement

Step 2

Talk to a CA

Step 3

Get a Clear Action Plan

Step 4

We Handle the Process

Step 5

Stay Compliant & Informed

---

38. Homepage — Startup Package

Section:

Everything You Need to Start Your Business

Include:

- Business registration
- GST
- MSME
- Startup India
- Trademark
- Accounting setup
- Tax/compliance setup
- Business website

CTA:

Explore Startup Package

---

39. Homepage — Trust Section

Possible elements:

- CA profile
- Professional qualification
- Years of experience
- Certifications
- Client testimonials
- Client industries
- Case studies
- Professional memberships
- Awards

No fabricated statistics.

---

40. Homepage — Testimonials

Each testimonial:

- Client name
- Business/industry where permitted
- Testimonial
- Optional photo
- Location

Use real testimonials only.

---

41. Homepage — FAQ

Examples:

Do you provide services outside Delhi NCR?

Yes. The firm is Delhi NCR-based and provides services to clients across India, subject to the nature of the service.

Can I speak directly with a CA?

Yes. The website should make consultation with the CA/team a primary experience.

Do you handle complex tax matters?

Yes, where within the firm's confirmed professional scope.

Do you work with startups?

Yes, including business setup, registrations, taxation, accounting and compliance.

---

42. Homepage — Final CTA

> **Have a Tax, Business or Compliance Requirement?**
>
> Tell us what you need. Our CA team will understand your requirement and guide you on the next step.

CTA:

Talk to a CA

Secondary:

WhatsApp Us

---

43. Service Page Template

Every major service should have a dedicated SEO-friendly page.

Section 1 — Hero

Service Name

Short explanation.

CTA:

Talk to a CA

Section 2 — What Is This Service?

Simple explanation.

Section 3 — Who Needs It?

Use audience cards.

Section 4 — What We Help With

List scope.

Section 5 — Process

1. Consultation
2. Document Review
3. Preparation
4. Filing/Execution
5. Follow-up
6. Completion

Section 6 — Documents Required

Dynamic service-specific list.

Section 7 — Timeline

Only publish after CA confirms typical timelines.

Section 8 — Fees

Options:

- Starting from

- Custom quote
- Consultation required

Avoid misleading fixed prices for complex cases.

Section 9 — FAQs

5–10 service-specific questions.

Section 10 — CTA

> **Need Help With [Service]?**

Talk to a CA

---

44. Complex Case Page Template

For:

- Search & Seizure
- Assessment
- Litigation
- MSME Recovery
- Tax disputes

The page should be consultation-focused.

---

49. Contact System

Contact Page

Include:

- Office address
- Phone
- WhatsApp
- Email
- Working hours
- Google Maps
- Consultation options

Consultation Options

- Phone
- WhatsApp
- Video consultation
- Office consultation

Actual availability should be confirmed by the CA.

---

50. Admin/CMS Requirements

The website should be manageable without developer involvement.

Admin should be able to manage:

Services

- Add service
- Edit service
- Delete/archive service
- Change category
- Change order
- Featured service
- SEO title
- Meta description
- Slug
- FAQ
- Content

Blog

- Create
- Edit
- Publish
- Schedule
- Categories
- Tags
- SEO metadata
- Featured image

Leads

- View
- Search
- Filter
- Assign
- Change status
- Add notes
- Export

Lead statuses:

- New
- Contacted
- Consultation Scheduled
- Consultation Completed
- Quote Sent
- Converted
- Lost
- Follow-up

51. Lead Dashboard

Dashboard should display:

- Total leads
- New leads
- Leads today
- Leads this week
- Conversion rate
- Top services
- Lead sources
- Pending follow-ups
- Assigned leads

---

52. Service Management

Each service should have:

- Name
- Category
- Short description
- Long description
- Featured image
- Icon
- Target audience
- Benefits
- Process
- Documents
- FAQs
- CTA
- SEO title
- Meta description
- URL slug
- Related services
- Related blogs

---

53. Blog / Knowledge Centre

Categories

GST

- GST updates
- GST notices

- GST refunds
- ITC
- Export GST

Income Tax

- ITR
- Tax planning
- Notices
- Assessments
- Capital gains

Business

- Company registration
- Startup
- MSME
- Compliance

Accounting

- Bookkeeping
- Financial statements
- CFO

Trademark

- Registration
- Objection
- Opposition
- Litigation

Export

- GST refunds
- LUT
- Export taxation

---

54. SEO Architecture

Service SEO

Every important service should have a dedicated URL.

Examples:

`/services/gst-registration`

`/services/gst-refund`

`/services/export-gst-refund`

`/services/inverted-duty-refund`

`/services/income-tax-assessment`

`/services/msme-payment-recovery`

`/services/trademark-registration`

`/services/virtual-cfo`

---

55. Location SEO

Primary positioning:

Delhi NCR + Pan India

Potential pages only where there is genuine relevance:

- CA in Delhi
- CA in Noida
- CA in Gurgaon
- CA in Ghaziabad
- CA in Faridabad

Do not create hundreds of thin location pages simply for SEO.

Location pages should contain genuinely useful local information and explain how the firm supports clients remotely.

---

56. SEO Metadata

Every service page needs:

- SEO title
- Meta description
- Canonical URL
- Open Graph title
- Open Graph description
- OG image
- Schema
- Breadcrumbs
- Internal links

---

57. Structured Data

Implement where appropriate:

- Organization
- Person
- ProfessionalService
- LocalBusiness where applicable
- FAQPage where eligible
- BreadcrumbList
- Article
- Service

All structured data must accurately represent the business.

---

58. AI / LLM Search Readiness

The website should be structured so modern search engines and AI systems can understand:

- Who the CA is
- Where the firm is based
- Where it serves
- What services it provides
- Who each service is for
- What problems it solves
- Professional expertise
- Service relationships
- Frequently asked questions

Use clear:

- Headings
- Definitions
- FAQs
- Tables
- Lists
- Service relationships
- Author information
- Updated dates
- Organization information

---

59. Internal Linking

Each service should link to:

- Related services

- Related packages
- Related blogs
- Relevant FAQs
- Contact/consultation

Example:

Export GST Refund

Links to:

- GST Refund
- LUT
- Export Compliance
- Inverted Duty Refund
- International Tax
- GST Services

---

60. Search Functionality

Website-wide search should allow visitors to search:

- Services
- Blogs
- FAQs
- Guides

Example:

User searches:

> "tax notice"

Results:

- Income Tax Notice Reply
- GST Notice Reply
- Assessment
- Tax Representation
- Related blogs

---

61. Service Finder

A future advanced feature:

> **What do you need help with?**

User selects:

I received a notice

Then:

- Income Tax notice
- GST notice
- TDS notice
- Other

Then website recommends relevant services and CTA.

---

62. Calculators & Tools

Phase 2/3.

Potential tools:

- Income Tax Calculator
- GST Calculator
- EMI Calculator
- HSN/SAC helper
- TDS Calculator
- Business Structure Comparison
- Startup Cost Calculator
- GST Refund Estimator

Tools should be reviewed and maintained for current tax rules.

---

63. Client Dashboard — Future

Not required for MVP.

Potential functionality:

- Login
- Documents
- Tasks
- Compliance calendar
- Filing status
- Invoices
- Payments
- Messages
- Notices
- Reports
- Download documents

64. Document Upload

For consultation/case assessment:

- PDF
- JPG
- PNG
- DOC/DOCX

Possible use cases:

- Tax notice
- GST notice
- Assessment order
- MSME documents
- Trademark documents
- Financial statements

Security and retention policies must be clearly defined.

---

65. Notifications

Future:

- Lead notification
- WhatsApp notification
- Email
- Consultation reminder
- Document reminder
- Compliance reminder
- Filing status

---

66. Analytics

Track:

Website

- Visitors
- Traffic sources
- Landing pages
- Service page views
- Search queries
- Scroll depth
- CTA clicks

Leads

- Form submissions
- WhatsApp clicks
- Phone clicks
- Consultation requests
- Service enquiries

Business

- Leads by service
- Leads by location
- Conversion rate
- Cost per lead
- Revenue by service
- Most profitable services

---

67. Lead Attribution

Every lead should ideally store:

- Source
- Medium
- Campaign
- Landing page
- Service
- Location
- Device
- Referral URL

Examples:

`Google Organic`

`Google Ads`

`Instagram`

`Facebook`

`WhatsApp`

`Direct`

---

68. CRM Integration

Recommended architecture should allow future integration with:

- CRM
- WhatsApp
- Email
- Google Sheets
- Calendar
- Accounting software

Do not hard-code the lead system in a way that prevents future integrations.

---

69. Technical Architecture

Recommended Frontend

Next.js

Benefits:

- SEO
- Performance
- Server-side rendering
- Scalable architecture
- Dynamic routes
- Structured metadata

CMS

Headless CMS or custom admin.

Possible options:

- Sanity
- Strapi
- WordPress headless
- Custom admin

Final choice based on development team.

Database

PostgreSQL.

Storage

Secure object storage for:

- Images
- Documents
- Case uploads

---

70. Security

Required:

- HTTPS
- Secure authentication
- Admin role permissions
- Rate limiting
- CAPTCHA
- Form validation
- Secure document upload
- Encryption where appropriate
- Database backups
- Audit logs
- Secure API endpoints

Sensitive client documents must never be publicly accessible.

---

71. Performance

Target:

- Fast first load
- Optimized images
- Lazy loading
- CDN
- Server-side rendering where useful
- Minimal JavaScript
- Core Web Vitals optimization

Target:

90+ Lighthouse performance where realistically achievable.

---

72. Mobile Experience

Mobile-first design is mandatory.

The majority of leads may come from:

- Mobile browsers
- WhatsApp
- Instagram
- Google Search

Mobile should have persistent:

Call | WhatsApp | Talk to CA

actions.

---

73. Design Direction

Visual Style

Recommended:

- Premium professional
- Clean
- Modern
- Trustworthy
- Human
- Financial/professional

Avoid making it look like:

- Government portal
- Generic accounting software
- Cheap lead-generation marketplace

---

74. Homepage Visual Hierarchy

Recommended order:

1. Hero
2. Problem/service finder
3. Trust indicators
4. Specialized expertise
5. Major services
6. Startup Package
7. Why Choose Us
8. Process
9. Testimonials
10. Educational resources
11. FAQs

12. Final CTA

---

75. Footer

Services

Major service categories.

Specialized

- MSME Recovery
- Search & Seizure
- Assessment
- Trademark Litigation
- Export Refund
- Inverted Duty Refund

Company

- About
- Contact
- Careers, if applicable

Resources

- Blog
- Guides
- FAQs
- Tools

Legal

- Privacy Policy
- Terms
- Disclaimer
- Refund/Cancellation Policy where applicable

Contact

- Phone
- WhatsApp
- Email
- Address
- Working hours

---

76. Content Requirements

Client must provide:

Professional Information

- CA name
- Firm name
- Qualification
- Professional experience
- Areas of expertise
- Professional credentials
- ICAI information where appropriate
- Office address
- Contact details

Trust Assets

- Professional photographs
- Office photographs
- Testimonials
- Google reviews
- Client feedback
- Case studies
- Awards
- Certifications
- Client logos where permission exists

Business Information

- Working hours
- Consultation method
- Service locations
- Pan-India service confirmation
- Pricing policy
- Payment methods
- Lead response process

---

77. Specialized Service Content Required

For each flagship service, collect:

- What type of cases are handled?
- Who is the ideal client?
- What problems are commonly encountered?
- What is the CA's exact role?
- Typical process
- Documents required
- Typical timeline
- Pricing model
- Common FAQs
- Examples/case studies where permissible

78. Content Tone

Use:

- Clear
- Professional
- Reassuring
- Human
- Practical
- Expert

Avoid:

- Overpromising
- Fear-based marketing
- Excessive jargon
- Guaranteed results
- Fake urgency

---

79. Professional Compliance & Disclaimers

Because this is a professional CA website:

Do not publish claims such as:

- "100% tax saving"
- "100% refund guaranteed"
- "Guaranteed case victory"
- "Guaranteed approval"
- "Guaranteed trademark registration"

Unless legally and professionally justified, avoid such language entirely.

Where a matter involves another regulated professional, the website should clearly identify the firm's role.

---

80. MVP Scope

Phase 1 — Launch

Pages

- Home
- About
- Contact

- Services
- All major service category pages
- Priority service pages
- Specialized service pages
- Startup Package
- Blog
- FAQ
- Privacy Policy
- Terms
- Disclaimer

Features

- Lead forms
- WhatsApp
- Phone CTA
- CMS
- Admin dashboard
- Blog
- SEO
- Analytics
- Responsive design

---

81. Phase 2

- Service finder
- Calculators
- Advanced lead management
- CRM integration
- WhatsApp automation
- Consultation scheduling
- Document upload
- Advanced analytics
- More service pages
- More location pages

---

82. Phase 3

- Client dashboard
- Compliance calendar
- Client document management
- Filing status
- Payments
- AI-assisted service discovery
- AI FAQ assistant
- Personalized client portal
- Automated reminders

• Advanced CRM workflows

---

83. Conversion Funnel

Funnel A — Normal Service

Google/Search/Social

↓
Engagement

Funnel C — Startup

Google/Social
↓
Startup Page
↓
Startup Package
↓
Package Details
↓
Consultation
↓
Registration
↓
Accounting/Compliance
↓
Long-term Client

---

84. Core Conversion Strategy

The website should not simply generate one-time filing leads.

The long-term objective is:

Acquire → Consult → Serve → Retain → Cross-sell → Long-term CA relationship

For example:

Startup Registration
→ GST
→ Accounting
→ Tax Filing
→ ROC Compliance
→ Trademark
→ Virtual CFO

---

85. Cross-Selling

Every service page should show related services.

Example:

Company Registration

Related:

- GST
- MSME
- Trademark
- Accounting
- ROC Compliance
- Startup Package

GST

Related:

- Accounting
- Income Tax
- TDS
- GST Refund
- Export GST
- Virtual CFO

MSME Payment Recovery

Related:

- MSME Registration
- GST
- Business Advisory
- Accounting
- Tax Advisory

---

86. Recommended Featured Services

The homepage should not give equal visual weight to every service.

Priority tiers:

Tier 1 — Differentiators

- MSME Payment Recovery
- Search & Seizure
- Income Tax Assessment
- Trademark Litigation
- Inverted Duty Refund
- Export GST Refund

Tier 2 — High-Demand

- GST
- Income Tax
- Accounting
- Business Registration
- Trademark
- MSME
- ROC/MCA

Tier 3 — Advisory

- Virtual CFO
- Business Advisory
- Funding
- Valuation
- International Tax

---

87. Success Metrics

Business KPIs

- Monthly qualified leads
- Consultation bookings
- Lead-to-client conversion
- Service-wise leads
- Revenue per service
- Repeat clients
- Cross-sell rate

Website KPIs

- Organic traffic
- Service page traffic
- Organic enquiries
- WhatsApp clicks
- Phone clicks
- Form conversion rate
- Bounce rate
- Engagement time

SEO KPIs

- Ranking keywords
- Top 10 rankings
- Non-brand organic traffic
- Service page rankings
- Local rankings

- Featured snippets/AI search visibility

---

88. Acceptance Criteria

The website will be considered MVP-ready when:

Content

- All confirmed services are represented.
- Major categories are logically organized.
- Specialized services have dedicated pages.
- Startup Package is clearly presented.
- CA profile is complete.
- Contact information is accurate.

UX

- Visitor can find a service within 2–3 clicks.
- Every major page has a clear CTA.
- Mobile navigation works correctly.
- WhatsApp and phone actions work.
- Forms work correctly.

Technical

- Responsive across major screen sizes.
- SEO metadata implemented.
- Sitemap generated.
- Robots configuration implemented.
- Analytics installed.
- Forms securely handled.
- Admin/CMS functional.
- Performance optimized.

Trust

- No fabricated claims.
- No fake testimonials.
- No guaranteed outcomes.
- Professional credentials verified.
- Legal pages published.

---

90. Final Product Strategy

The website should ultimately occupy a position between a **traditional CA firm** and a **modern professional-services platform**.

It should have:

TaxCaller's human experience

- **Vakilsearch's service breadth**
- **CorpBiz's package clarity**
- **IndiaFilings' SEO depth**
- **Startupwala's startup journey**
- **RegisterKaro's scalable architecture**

But the brand itself should remain clearly:

> **CA-led, professional, trustworthy and human.**

The most important differentiator should not be the number of services.

It should be:

> **"Whatever your tax, accounting, compliance or business problem is, you can explain it to a real CA and get professional guidance."**

And the specialized expertise should create a second, stronger positioning:

> **"Experienced professional support for complex tax, GST, MSME and trademark matters."**

This combination gives the website a strong foundation for **lead generation, SEO, long-term client relationships and future expansion into CRM, client dashboards, automation and AI-assisted services.**
